Difference in GVA and EX Factory GVA is due to different varieties of articles included in single item NPCMS .	Shivani Saxena Dummy	02/01/2025

Note :Reasons for negative working capital and for any abnormal values or entries(high or low) in respect to important characteristics(such as GVA, working capital, wage rate, number of workers, distributive expenses, depreciation etc.) should be given invariably.For instance the reason for high GVA could be increased demand-production, profit, govt,subsidy: or for low GVA, the reason could be decreased demand/production, capacity under-utilization, high input cost etc.similarly reasons for any abnormal values of certain important ratios eg. Ratio of output to input, ratio of depreciation/distributive expenses to output etc should be given.
